Secure Mobile IP Telephone Kit

Key Features

- Rugged Case
- Cisco 819 ISR Router with Cellular AT&T LTE or Verizon 4G
- Current mounts for Cisco 79XX and 88XX phones (others available)
- External access to Router Sim
- (2) External PoE Ethernet Ports (1 red, 1 black)
- External Copper WAN Port
- 4G On/Off Switch
- PoE On/Off Switch
- External 819 Console Port
- Integrated Viasat KG-250X Power Supply

The Secure Mobile IP Phone kit is designed with portability and convenience in mind. Connectivity and versatility is accomplished with key features like cellular and wired connections, switched PoE for external devices, and internal support for a Viasat KG-250X Type 1 Encryptor (**not included**). When paired with the Encryptor, our kit provides an effective solution for secure mobile communications.
