

Voyager 8200 “No Radio” Modified Headset (DTD-UC8200-01)

Key Features

- Best-in-class dual-mode active noise canceling (ANC) lets you choose your preferred noise-reduction level
- 3.5mm cord extends your listening time and is optimal for in-flight use

The modified secure version of the Voyager 8200 headset is adapted to be a wired-only and all radio removed headset.

The use case for the modified Voyager 8200 (DTD-UC8200-01) is in an area that processes sensitive data or secure areas with applicable U.S. government/corporate security policies in effect, i.e., no cell phones, no transmitters, no memory devices, etc.
