

TSG-APPROVED FOR SOFTPHONES

With laptop and desktop devices being key enablers of hybrid work environments, ensuring TSG compliance applies to more than just physical phones.

PD-01

PD-02

PD-05

Benefits

Simple to install and connect to compute devices without technical expertise

TSG-compliant headset and webcam collaboration peripherals available from CIS as part of a deployment kit

The USB PD-05 comes with a built-in speakerphone to provide additional flexibility

CIS Secure suite of USB Positive Disconnects includes an analog option, a digital option and an option which supports both

Product Overview

In a world of contested communications, the National Telecommunications Security Working Group has issued guidance for ensuring the proper countermeasures are in place to protect Voice over IP (VoIP) communications. The CIS Secure USB Positive Disconnect provides the security needed for collaboration peripherals connected to laptop and desktop devices running soft phones when used in secure spaces. As a TSG Certified device, our USB Positive Disconnect ensures compliance with the provided guidance when peripherals such as headsets/handsets and webcams are connected to a collaboration workstation.

The DTD-TSGPD USB Positive Disconnect is designed, developed and manufactured by CIS Secure to meet the needs of the secure government collaboration environment. The small, modern desktop design is both simple and intuitive for easy connection and use. The TSG button located on the top of the unit disables, or enables, the positive disconnect functionality. Color LED indicators at the top of the unit signify the status of the communications channel to ensure that users are aware of the current state. With the USB Positive Disconnect, users have the same protections as with a TSG phone.

Key Features

Small Form Factor

USB Webcam Support

Headset Support

Timer Options

Designed for Softphones

Product Specifications

Product Number	TSG #	Microphone Removed	Speakerphone Disabled	3.5 mm Ports	USB Ports
DTD-TSGPD-01	TSG-NC-05-2017	N/A	N/A	1	1
DTD-TSGPD-02	TSG-NC-05-2018	N/A	N/A	None	2
DTD-TSGPD-05	TSG-NC-02-2022	N/A	N/A	1	2
DTD-TSGPD-05-MR	TSG-NC-03-2022	Yes	No	1	2
DTD-TSGPD-05-SD	TSG-NC-04-2022	Yes	Yes	1	2

Interfaces: USB 2.0 Type A ports for peripherals (headset or camera)
 3.5 mm Audio port for for peripheral (headset)
 USB 2.0 Type A cables for connection to PC (PD-01 and PD-02 only)
 USB 2.0 Type B port for PC connection (PD-05 only - cable included)

AC Power: 100-240 VAC with 5V DC wall adapter included

Approved Accessories (CIS Secure Part #'s)

Analog Push-to-Talk (PTT):	DTD-PTTHS-MON-ANALOG
USB Push-to-Talk (PTT) Headset:	SM5400-BOTH-PTT
USB Web Camera:	DTD-C920-CAM-01

Dimensions: PD-01 and PD-02 - (H x W x D): 2" x 5.1" x 3.8"; (5.1 x 13 x 9.7 cm)
 PD-05 - (H x W x D): 2" x 5.1" x 3.8"; (5.1 x 13 x 9.7 cm)

Weight: .7 lbs.

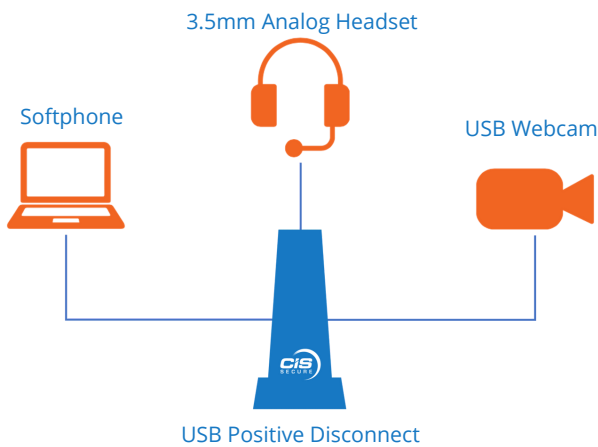

Lighting: Green indicates positive disconnect is engaged and the caller cannot hear
 Red indicates the circuit is open and the caller can hear conversations

Warranty Standard 1 year parts and labor
 Optional 3 years parts and labor
