

TSG Compliance Assured. Familiar Desk Phone Experience.

Secure your softphone environment without compromise. CIS Secure has partnered with Protego Systems to deliver a TSG-compliant solution that combines our Positive Disconnect with a Protego push-to-talk capable USB desk phone bringing secure, headset-free communications back to the desktop.

The Secure Collaboration Bundle combines a CIS Secure USB Positive Disconnect device with a USB-connected desk phone peripheral from Protego Systems to deliver a compliant solution purpose-built for secure environments. As agencies and organizations continue the transition from traditional telephony to softphone platforms, this bundle restores the familiar ergonomics and workflow of a classic desk phone while meeting stringent TSG requirements. CIS Secure USB Positive Disconnect devices enforce true on-hook security by physically isolating the audio path when not in use, ensuring conversations remain protected in sensitive spaces, while the USB desk phone provides a comfortable, handset-based alternative to all-day headset use reducing fatigue and improving the user experience.

Together, these devices create a seamless and intuitive experience that aligns with both mission assurance and user preference. The solution is fully TAA compliant, supporting secure supply chain requirements for DoD and Intelligence Community deployments. Its plug-and-play USB architecture integrates effortlessly with leading softphone clients including Microsoft Teams, Cisco Jabber/WebEx, Zoom and other applications. The solution preserves flexibility as users can easily connect a headset when needed for extended collaboration scenarios, without compromising security posture. The result is a modern communications solution that bridges legacy familiarity with next-generation security and compliance, delivering both operational efficiency and user confidence.

SOLUTION COMPONENTS

Solution Bundles

Product Number	Product Description
DTD-TSGPD-02-PROMO-BUN1	TSG Approved Dual USB Positive Disconnect, 30-minute timer standard (can be modified prior to order), TAA. TSG Approval #: TSG-NC-05-2018 PTG500-SEC TAA Compliant USB desk phone with Push-to-Talk handset from Protego Systems
DTD-TSGPD-05-PROMO-BUN1	TSG Positive Disconnect, Dual USB output, internal Codec, speaker phone, 3.5mm headset port. 30-minute timer standard (can be modified prior to order) TAA. TSG Approval #: TSG-NC-02-2022 PTG500-SEC TAA Compliant USB desk phone with Push-to-Talk handset from Protego Systems
